

Share the space.

Lab's busy

01

An accelerator runs in parallel. Coworking is theirs — be a guest.

Stay intentional

02

3–5 in the space at once. Plan before you turn up.

Hardware is yours

03

Take what you need from the shelves. All of it — that's what it's there for.

Bring it back

04

Treat the gear kindly. Return it intact for the next builder.

Coordinate prints

05

One big print at 6pm, cleared by morning. Day jobs stay short.

House rules

06

No kitchen, no upstairs — it's a sharehouse. Respect the residents.
