

KICKOFF · MAY 17 · 2026

o1 bridge

01LAB × ARRAYAH

— WHERE WE ARE

o1lab is an experiment.

A space, some tools, and an open door — to see what happens when curious people have somewhere to **just make things**.

o1 bridge is the first round of finding out.

lab.

— THE BRIEF

Bring AI into the physical world.

— THE CONSTRAINT

Not as a robot.

THE RECIPE

01

An ESP32.

02

A sensor, or an actuator.

03

Exposed over WiFi.

04

A story about the bridge.

A doorbell.

A desk. A teapot.

AI doorbell

01

Camera, vision model, opinions. Texts you who's at the door — and what they're carrying.

Desk tracker

02

A sensor watching your desk. Nudges you when you slump, drift, or leave the kettle on.

Plant whisperer

03

Soil, light, temp. Your basil sends you weary text messages.

Street diary

04

Counts what nobody is counting — birds, cars, footsteps — and writes the day up.

— THE WEEK

May 17 → May 24.

- TODAY · SUN 17 MAY

Kickoff
- MON – FRI

Open lab. Build.
- SUN 24 MAY · 3PM

Demos & mixer

— WHAT'S ON THE SHELVES

The lab is yours all week.

- ESP32 · PI · ARDUINO
- SENSORS · ACTUATORS · CAMERAS
- 3D PRINTERS
- LASER CUTTER
- SOLDERING
- OSCILLOSCOPES
- BUILD BUDDIES

FULL LIST — 01LAB.XYZ

Share the space.

Lab's busy

An accelerator runs in parallel. Coworking is theirs — be a guest.

01

Stay intentional

3–5 in the space at once. Plan before you turn up.

02

Hardware is yours

Take what you need from the shelves. All of it — that's what it's there for.

03

Bring it back

Treat the gear kindly. Return it intact for the next builder.

04

Coordinate prints

One big print at 6pm, cleared by morning. Day jobs stay short.

05

House rules

No kitchen, no upstairs — it's a sharehouse. Respect the residents.

06

— GRAND PRIZE

A new 3D printer.

Plus category prizes — microcontroller kits, electronics bundles, parts.

WINNER TAKES HOME

Bambu Lab P1S.

Fully enclosed, multi-colour, quietly absurd. Take it home. Start your own garage.

— WITH SPECIAL THANKS TO

BLACKBIRD.FOUNDATION

For **unleashing creativity in young people** — and for backing the kind of strange, hands-on work that o1 bridge is built on.
